Training Objective & Experience

- Developing and refining a handbook portal , with the primary goal of enhancing user experience and boosting efficiency.
- Enhance technical proficiency and collaborative skills in a professional web development environment.
- Additionally, I streamlined the portal's functionalities to align better with the company's needs and those of its clients.
- Ultimately, my efforts were directed towards creating a more seamless and effective tool for both users and administrators.

Skills Developed

TECHNICAL SKILLS

SOFT SKILLS

01 HTML & CSS

02 JAVASCRIPT

03 NODE.JS

04 PROBLEM SOLVING

05 COLLABORATION

06 ADAPTABILITY & TIME MANAGEMENT

ACHIEVEMENTS & CONTRIBUTIONS

I successfully redesigned and developed a responsive villa rental handbook portal using HTML, CSS, and JavaScript, which greatly enhanced the user interface and overall user experience. By implementing dynamic search filters and interactive elements, I significantly improved user engagement and functionality.

CHALLENGES FACED

One significant challenge was redesigning and developing the responsive villa rental handbook portal. Working with Node.js and Express.js for server-side development introduced new complexities.
Building robust and scalable back-end solutions requires a deep understanding of these technologies.

Lessons Learned

- Learned how to tackle issues related to scalability and efficiency, gaining practical skills in building robust and scalable back-end solutions.
- Balancing multiple tasks and deadlines taught me effective time management strategies.
- I learned to present complex ideas clearly and work collaboratively with team members, which facilitated better teamwork and project coordination.
